

We are looking for a

Java Fullstack Developer

The 360 Code Lab will be part of the Austrian based 360 Lab (360-lab.com), which develops innovative products and services and optimizes existing business models for their market conformity. Due to the increasing need for software development within the myWorld ecosystem, an offshore development center will be opened in the heart of Warsaw in 2019 – the 360 Code Lab. The aim of the 360 Code Lab is to develop state of the art technologies and to make ideas become reality. True to the motto: "Be different in order to generate great results", dedicated technology enthusiasts, lateral thinkers and code poets will work together to master even the most complex technical challenges. In short, the 360 Code Lab will be a place where motivated developers will be working on cutting edge projects in a super modern office in the Warsaw Spire Tower.

Main Activities

- Support the entire software life-cycle (concept, design, test, release and maintenance)
- Write unit and UI tests to identify issues
- Work in an agile team side by side with business specialists, program managers, software engineers and designers

Qualifications

- Bachelor's or Master's degree in computer science or a related discipline
- Experience in the software industry, taking a product through its complete life-cycle
- Excellent analytical and social skills with the ability to work successfully across all engineering disciplines
- Maturity, judgement and proven ability to build strong relationships
- Fluent in English, German is a plus

Skill Requirements

- Excellent knowledge of Java 8
- Java Frameworks: JPA / Hibernate, Spring DI, Spring Boot, Servlets, JSF
- Services: REST/JSON APIs, Messaging (Amazon SQS/SNS, ActiveMQ, Kafka), Swagger
- Databases: MySQL, MariaDB
- Testing: JUnit
- Deployment: Git, Maven, Tomcat, Jetty, Jenkins
- Operations: Basic Linux knowledge (Server / Workstation), Docker

Nice-to-have

- Databases: MongoDB, Cassandra, CockroachDB
- Cloud Services: AWS, GCP
- Operations: Terraform, Kubernetes, Prometheus, Grafana
- Previous e-commerce experience
- Good understanding of Agile / SCRUM framework

We are burning to break new ground, break traditional thinking patterns and implement creative solutions. We are looking for people who want to shape our company and make a difference, and for whom a responsible, respectful togetherness is a matter of course. If you can identify with that, you're well on the way to starting a long-term career with a successful, internationally expanding company. Send your application and CV to: office@360codelab.com or use the apply **button** below.
