

# We are looking for a Senior Scala Developer

The 360 Code Lab is part of the Austrian based 360 Lab (360-lab.com), which develops innovative products and services and optimizes existing business models for their market conformity. Located in the heart of Warsaw, featuring a uniquely modern office space within the Warsaw Spire Tower, the aim of the 360 Code Lab is to develop state of the art technologies and to make ideas become reality. True to the motto *Be different in order to generate great results*, dedicated technology enthusiasts, lateral thinkers and code poets will work together to master even the most complex technical challenges. We want to give you the ideal environment, to break conventional thinking patterns, develop disruptive ideas, find creative solutions and implement projects dynamically.

## Main Activities

- Improving and extending the features of our event-ticket system and event-ticket shop
- Development of customized applications, APIs and the integration of 3rd party systems
- Active participation in the creation, design and development of new features and services
- Evaluation and implementation of new tools and technologies
- Close cooperation with CTO, product and project management, web design and external partners

## Requirements

- You are a veteran programmer, a craftsman – we don't care how you acquired your skills
- You know Scala, the JVM, Akka and preferably the Play Framework or Lagom
- Domain Driven Design, Event Sourcing and micro service environments are no news to you
- Preferably you have worked with Docker, Kubernetes or something similar
- Teamplayer, proficient in English, good communicator

We are burning to break new ground, break traditional thinking patterns and implement creative solutions. We are looking for people who want to shape our company and make a difference, and for whom a responsible, respectful togetherness is a matter of course. If you can identify with that, you're well on the way to starting a long-term career with a successful, internationally expanding company. Send your application and CV to: [hr@360codelab.com](mailto:hr@360codelab.com) or use the apply button below.
