

We are looking for a Tech Lead

The 360 Code Lab is part of the Austrian based 360 Lab (360-lab.com), which develops innovative products and services and optimizes existing business models for their market conformity. Located in the heart of Warsaw, featuring a uniquely modern office space within the Warsaw Spire Tower, the aim of the 360 Code Lab is to develop state of the art technologies and to make ideas become reality. True to the motto *Be different in order to generate great results*, dedicated technology enthusiasts, lateral thinkers and code poets will work together to master even the most complex technical challenges. We want to give you the ideal environment, to break conventional thinking patterns, develop disruptive ideas, find creative solutions and implement projects dynamically.

Main Activities

- Technical lead in the conception and implementation of the product vision and feature roadmap
- Coordination as well as technical and disciplinary management of the existing team and development of new team members
- Holistic responsibility for the strategic planning, support and expansion of the product in close coordination with the management and the product owner
- Active participation in the design, conception, development and implementation of the corporate strategy
- Internal and external contact person with regard to technical issues, guidelines, compliance and relevant legal regulations for the platform
- Securing a competitive advantage of the platform infrastructure (performance and scalability)

Technical Requirements

- Advanced experience with Typescript & advanced Scala
- Familiar with Apache-Kafka
- Familiar with Lagom application access & IBM cloud object storage
- Experience with code in Reactjs
- Used to amazon-web-services
- Familiar with Jira, Git and Kubernetes

Skill Requirements

- You are an enthusiastic developer with a solid technical background in cloud computing and several years of programming experience (preferably Scala or Java)
- You have relevant experience in the fields of e-commerce, marketplaces and web development
- You are used to managing an IT team in an agile project set-up, both technically and disciplinary, at different locations
- They understand both the vision of the company in terms of content and the challenges from the legal side (GDPR, first-party cookies, etc.)
- You see yourself as a motivated and motivating team player with good written and spoken German and English skills
- They are a communicative link to a wide variety of departments where there are points of contact with IT.

We are burning to break new ground, break traditional thinking patterns and implement creative solutions. We are looking for people who want to shape our company and make a difference, and for whom a responsible, respectful togetherness is a matter of course. If you can identify with that, you're well on the way to starting a long-term career with a successful, internationally expanding company. Send your application and CV to: hr@360codelab.com or use the apply **button** below.
