

# We are looking for a Senior Devops Engineer

The 360 Code Lab is part of the Austrian based 360 Lab (360-lab.com), which develops innovative products and services and optimizes existing business models for their market conformity. Located in the heart of Warsaw, featuring a uniquely modern office space within the Warsaw Spire Tower, the aim of the 360 Code Lab is to develop state of the art technologies and to make ideas become reality. True to the motto *Be different in order to generate great results*, dedicated technology enthusiasts, lateral thinkers and code poets will work together to master even the most complex technical challenges. We want to give you the ideal environment, to break conventional thinking patterns, develop disruptive ideas, find creative solutions and implement projects dynamically.

## Main Activities

- Delivery of secure, robust, scalable, highly available and self-healing cloud environments in Cloud (AWS, GCP, Azure)
- Knowledge sharing and collaboration through effective documentation and verbal communication
- Participating as part of a distributed agile team

## Skill Requirements
